Because most of our staff are immune compromised, we are not able to provide service to clients not willing to wear a mask in our store or for treatment. We have found with even the most anxious clients, that we are able to make clients wearing masks comfortable so they can enjoy their therapy. We appreciate your understanding.

Massage

Swedish Massage is a relaxing style of massage that involves a firm but sensitive touch with smooth, gliding strokes. This style of massage promotes good circulation and helps release toxins from the muscles, targets the nervous system to help reduce both physical and emotional stress.

Therapeutic Massage combines Swedish and Deep Tissue and other techniques to release tension and balance the mind and body.

Deep Tissue Massage uses a deeper pressure alternating with Swedish techniques to help relax the muscle by targeting the deeper tissue structures of the muscle and fascia. It is a more focused massage, working to release chronic muscle tension or knots.

Reflexology is a form of bodywork that uses light pressure to stimulate points on the foot. With reflexology, a signal is sent through the nervous system to problem areas, helping them to resist stress and achieve healthy function. Reflexology promotes relaxation, increases circulation, and assists the body in coming into balance.
